Commissioner for Patents  
Washington, D.C. 20231

RECEIVED  
OCT 21 2002  
TECHNOLOGY CENTER 2800

Dear Sir:

Applicants request that the present application be reconsidered in view of the following amendments and remarks.

In the Claims:

Please amend claim 12 to read as follows:

12. A motor system including a motor comprising at least one phase coil having a first number of turns, said system further comprising:
- a motor speed sensor coupled to said motor for sensing a speed of said motor;
  - a switch coupled to said phase coil of said motor;
